**THE ILLINOIS INTERNATIONAL PORT DISTRICT
RELEASES AN RFP FOR
FIRE SUPPRESSION/PROTECTION SYSTEM
CONTRACTOR SERVICES**

The Illinois International Port District (IIPD) has released an RFP in regards to a Fire Suppression/Protection System Contractor Services for facilities at the Lake Calumet location; specifically the five (5) transit sheds.

The IIPD is seeking proposals from qualified and experienced companies to provide consultation and a range of services relating to the updating and installation of new fire suppression/protection systems and equipment with respect to certain IIPD properties.

This RFP includes two distinct service areas:

- (A) System installation services; and
- (B) System inspection and maintenance services.

Respondents may propose or bid on one or both services. The IIPD intends to evaluate the costs and services for installation independently from inspection and maintenance when making its determination on any award.

Bid submissions are due back no later than 4:00 pm CST, July 30, 2018. There will be an opportunity to tour the site with a review of the blueprints on July 20, 2018, at 2:00 pm CST.

All information in regards to this RFP may be found on our website at <http://iipd.com/news/rfqs-rfis-rfps-and-bids>

Please feel free to forward this email to any other interested parties and if there are any questions, comments or concerns, please follow the directions included within the RFP.

Thank you and we will look forward to your submission.
